## ATIBT: who we are

### International Technical Tropical Wood Association

**Representing**  
an international  
level: advocacy,  
lobbying,  
market,  
marketing

**170  
members**

**Knowledge  
and formation**  
technical  
referent, wood  
and forest  
expertise, market,  
support for  
marketing

**72 years of  
experiences**

**Federate**  
inter-union work:  
better commu-  
nication with  
trade unions,  
north/south and  
south/south  
interactions

**12 current  
projects**

**Innovation**  
carry on a  
foresight work  
and innovation  
work, for  
example with  
think tank,  
projects, ect.

**30 countries  
represented**

We present today two existing partnership platforms between timber supply and demand sectors :

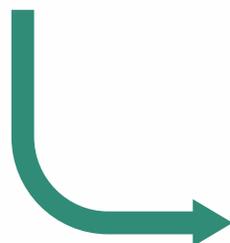

- **Fair&Precious**
- **Communities Forest Pact**

**Communities Forest Pact**  
Together against Deforestation

Next, we'll be presenting

**My Tropical Timber** website

A tool to pursue these initiatives and create new partnerships

## FAIR&PRECIOUS partnership

The Fair&Precious partnership was initiated by the ATIBT in 2017, <https://www.fair-and-precious.org/en>, to promote sustainably, ethically and legally managed tropical timber, comply with the strictest environmental standards, and develop a more humane economy that protects people and nature.

**10 commitments, linked to the sustainable development goals, are the pillars of the platform.**

SUSTAINABLE DEVELOPMENT GOALS

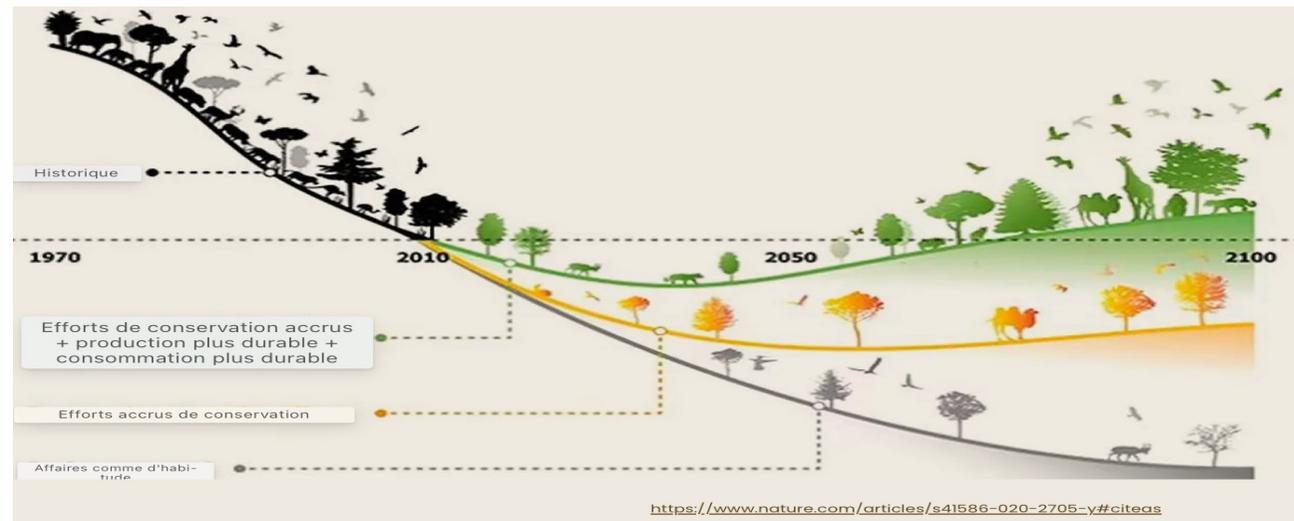

Fair&Precious brings together 8 certified operators representing 7 millions ha and 40 partners committed to support the operators

## COMMUNITIES FOREST PACT partnership

The **Communities Forest Pact** partnership was created by Stephane Glannaz in 2024, <https://www.forestpact.com>, to help communities and forest operators implement sustainable forest management models to ensure the preservation of these ecosystems, while improving people's livelihoods through products and services that guarantee a fair return for their environmental performance.

THE LEADING AUTHORITY ON TROPICAL TIMBER

[atibt.org](http://atibt.org)

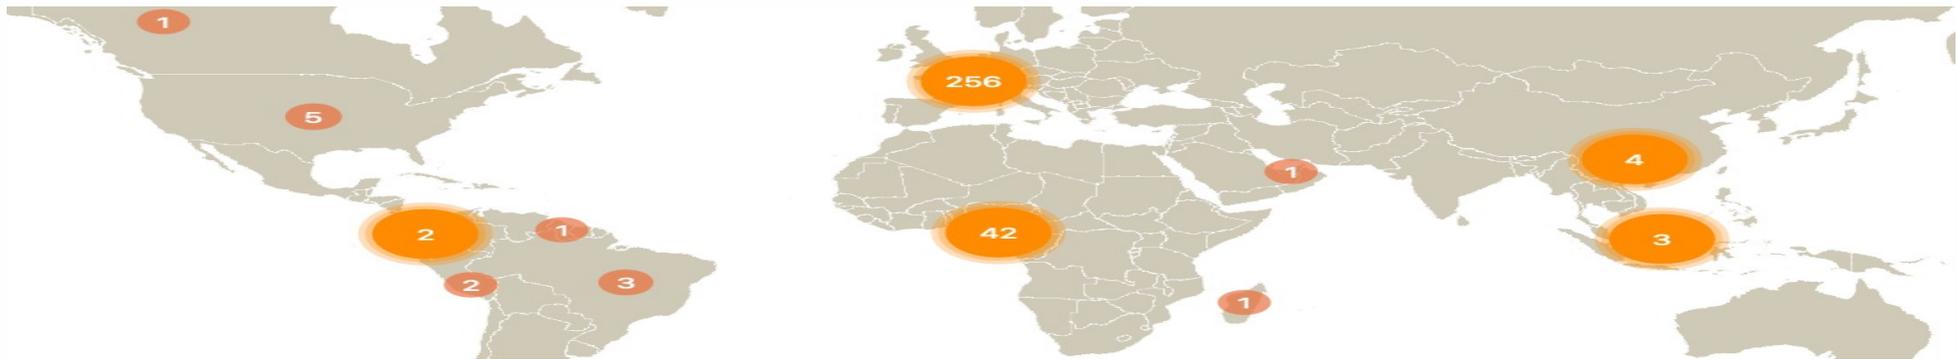

## MY TROPICAL TIMBER, a tool for developing partnerships and to increase business in our sector.

Currently being finalised, the new [www.mytropicaltimber.org](http://www.mytropicaltimber.org) website, updated end 2024, will focus primarily on promoting sustainably-managed tropical timber worldwide.

The [www.mytropicaltimber.org](http://www.mytropicaltimber.org) website is a platform created in 2019, dedicated to promoting the main players in the tropical wood industry, from upstream to downstream.

**In order to strengthen its role as a global reference for tropical timber and extend its reach to all tropical timber producing and importing countries, a complete overhaul of the site is underway.** The aim is to improve the design, ergonomics and functionality of the site, adding new filters and increasing overall traffic.

**Above all, our ambition is to offer a global image of the key players in the industry, starting with the associations for tropical timber sector**

## ASIA

-  China
  - CTWPDA  
China Timber & Wood Products Distribution Association
  - GGSC  
Global Green Supply Chains
  - STTA  
Shanghai Timber Trade Association
-  Indonesia
  - STA
